DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:
A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,2, 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Marton-6,413,157.

Marton discloses an orbital sander with a head portion for counterbalancing comprising: a first element (60) connected to the drive means rotatable about a first axis and abrasive pad assembly rotatable about a second axis parallel to the first, a second element (62) detachably connected to the first, said first and second elements counterbalancing the machine and disposed asymmetrically with respect to second axis (Fig. 2).

Allowable Subject Matter

- 3. Claims 3-11 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 4. Claim 13 appears allowable over the prior art of record.
